

Adeyemo Oluwakemi

Frontend Developer

PROFILE

Frontend Developer with over 2+ years of experience building responsive, user-friendly, and high-performing web applications. Skilled in React.js, Next.js, JavaScript, TypeScript, and Tailwind CSS.

WORK EXPERIENCE

Web application developer, MSME ecosystem

Feb 2023 – Current

User Interface Development: Designing and Implementing visually appealing responsive and Intuitive user interfaces using HTML CSS. and JavaScript.

Performance Optimization and Compatibility: Ensuring optimal performance and cross Browser compatibility of web applications by optimizing code, assets and layout.

Front End Developer, MSME

Apr 2025 – Dec 2025

Integrated APIs to enhance application functionality and streamline data management. Assisted in testing web applications across various browsers for compatibility issues. Created custom responsive designs that optimized the website layout for various devices. Debugged existing code to identify and fix bugs or performance issues.

Front End Developer, MSME

May 2025 – Sept 2025

Completed day-to-day duties accurately and efficiently. Contributed innovative ideas and solutions to enhance team performance and outcomes. Worked successfully with diverse group of coworkers to accomplish goals and address issues related to our products and services. Collaborated closely with team members to achieve project objectives and meet deadlines.

Front End Developer, MSME – Documentation Specialist

Mar 2024 – May2024

Spearheaded the creation of comprehensive documentation for Tulu web application, designed to enhance the development process and improve team collaboration. The documentation covered various aspects of the frontend.

The documentation was designed to be a living document, regularly updated to reflect new features and changes in the codebase. It served as a valuable resource for onboarding new developers, maintaining code quality, and streamlining the development workflow.

Collaborated with designers and backend developers to translate wireframes and prototypes into fully functional, visually appealing web pages.

Integrated third-party APIs and services to extend functionality, including payment gateways, authentication systems, and data visualization tools.

Developed responsive web applications using Next.js, ensuring optimal performance across various devices and browsers.
